

The ABC of Computational Text Analysis

*#12 NLP WITH PYTHON II +
WORKING SESSION*

Alex Flückiger

Faculty of Humanities and Social Sciences
University of Lucerne

25 May 2024

Recap last Lecture

- perform NLP with spaCy 
Named Entities, linguistic information ...
- create a corpus from text files with textacy 
party programmes by SP
- get basic statistics 

Outline

- visualize word frequencies over time 
- export your own dataset as `.csv` 
- work on mini-project

Mini-Project Presentations

- ~5 projects
- present on 1 June 2024
 - 10 minutes per group
 - +1 min preparation
 - +1 min feedback
- comply with formal requirements

Prepare Presentation

- talk, slides, and plots ...

Motivation: What did you explore?

Data & Methods: What data and methods did you use?

Results & Discussion: What did you find out?

- connect your laptop with the projector

visualize to drive your point home
